Product highlights

Bottle lifter
Even short bottles and jars are easily removed from the bottle warmer thanks to the handy lifting handle.

Fits all bottle and jar types
The product is designed in such a way that all kind of sizes and shapes of bottles and jars fit in.

Double insulation
With your safety and convenience in mind, the double insulated bottle warmer is designed to be used in every room in the house, not just where a earthed mains socket is available. There are no exposed metal parts that can become live.

Overheat protection
To avoid the danger of accidently burning your baby's mouth, the automatic switch off ensures the food does not get too hot.

PTC heating element
The controlled heating process incorporating a PTC heating element and two sensors is ideal for consistently heating food and keeping it warm.

Temperature control system
The latest heating technology incorporates a PTC heating element and two sensors ensures the water in the beaker quickly reaches the ideal temperature and maintains it at a safe level that won't burn your baby's mouth with food or milk that is too hot.

Click-step temperature setting
With the Click-step temperature setting you can adjust the setting to suit the different types of food and bottles and jars you want to heat up.
